

Dear participant,

We are writing you with regard to an overview of **previous, current, and planned One Health (OH)** research and training activities, including **antibiotic resistance (ABR)** in Western Europe (Austria, Belgium, France, Germany, Italy Iceland, Ireland, Liechtenstein, Luxembourg, Monaco, Netherlands, Portugal , Scandinavia, Spain, Switzerland, UK) we are currently working on. This overview is to be published as a review in a special issue of OH review articles for *Current Clinical Microbiology Reports* and will focus on One Health in infectious disease research and training.

Because you are involved in the field of One Health in Western Europe, we are inviting you to participate in this research study by completing the attached survey. We hope you are willing to help complete this overview to promote the One Health concept globally.

Because of the very tight timeframe, we ask you to return the completed questionnaire as soon as possible, but **before 22 August**.

If you require additional information or have questions, please contact us at the email address listed below.

Thank you very much in advance.

Sincerely,

Reina Sikkema, PhD student Viroscience, ErasmusMC, Rotterdam ([r.sikkema@erasmusmc.nl](mailto:r.sikkema@erasmusmc.nl) )

Marion Koopmans, Head department of Viroscience, ErasmusMC, Rotterdam
